2° public assembly: let's organize and build together a path to resistance and social mobilisation

ACCA - Assemblée Cittadina Continua Antirazzista.

We are women and man, immigrants and not who gather together after the Decree "Salvini" (D.Lgs 113/2018) was signed because we are worried about the racist turn that society and politics have taken in this country.

The Decree, in fact, hits EVERYONE: Italian citizens, immigrants, asylum seekers will lose freedom, work, health and future.

ACCA's AIM is to put in contact realities, groups, associations, communities and individuals in order to promote exchange and common actions.

During the first public assembly on the 14 November gathered more than 100 people and many called for a network to spread out real **ANTIRACISM**: against every discrimination and inequalities to build together new communities and new practice of citizenship.

We meet again on the 28 November to collect, share and develop proposals, ideas, real practices of solidarity for the Antiracist network to go on.
